No 4
TECHNICAL ELECTRODYNAMICS
2009

CONTENTS

Subject Categories:□□□□□□Theoretical electrical engineering and electrophysics

Title: Stability of a high-frequency electric arc of alternating current
Authors: SPIRIN V.M.
Source: Tekhnichna Elektrodynamika 4: 3–6, 2009

Subject Categories:□□□□□□Conversion of electric energy parameters

Title: Particular features of the external characteristic of the divided stabilized power supply
Authors: LYPKIVSKY K.A., RUDENKO Yu.V.
Source: Tekhnichna Elektrodynamika 4: 7–11, 2009

Title: A parametric current stabilizer
Authors: SARATOVSKY R.N.
Source: Tekhnichna Elektrodynamika 4: 12–15, 2009

Subject Categories:□□□□□□Electromechanical energy conversion

Title: The intellectual system of rotation speed adjustment of a rotor of a non-invasive electro-magnetic engine

Authors: ANTONOV A.E., KIRIK V.V.
Source: Tekhnichna Elektrodynamika 4: 16–19, 2009

Title: Macromodeling of elements of a system of electric drive on the example of an asynchronous motor with a diode bridge in a stator circuit
Authors: STAKHIV P.G., SELEPINA I.R.
Source: Tekhnichna Elektrodynamika 4: 19–22, 2009

Title: A mathematical model of a rectifier feeding valve inductor-jet engine
Authors: ZINCHENKO E.E.
Source: Tekhnichna Elektrodynamika 4: 23–28, 2009

Title: Mathematical simulation of a magnetic field in an electrodynamometer for computation of currents in a discoid rotor
Authors: TSYGANKOVA G.A.
Source: Tekhnichna Elektrodynamika 4: 28–35, 2009

Title: Structural designing of symmetric three-phase double-speed circuits of windings with switching of a number of pole pairs in correlation 4:5
Authors: GAVRILIUK R.B.
Source: Tekhnichna Elektrodynamika 4: 35–40, 2009

Title: An algorithm of computation of steady-state modes of an electric drive of rod oil-producing plants
Authors: MALYAR A.V.
Source: Tekhnichna Elektrodynamika 4: 40–44, 2009

Subject Categories:□□□□□□ Electric power systems and installations

Title: High-voltage measuring complexes of electric power with automatic correction of errors
Authors: STOGNIY B.S., TANKEVICH E.N., YAKOVLEVA I.V., VARSKY G.M.
Source: Tekhnichna Elektrodynamika 4: 45–51, 2009

Title: Neuromathematical equivalenting of nontelemechanical fragments for the tasks of operative optimization of the modes of electric networks
Authors: DANILIUK O.V., KOZOVY A.B., SHVETS M.M., MELNYK I.R.
Source: Tekhnichna Elektrodynamika 4: 51–57, 2009

Title: The results of experimental-industrial operation of a high-voltage frequency transformer at the ammonia pipe line "Toljatti - Odessa"
Authors: ANDRIENKO P.D., BEZUGLY S.L, ZEMUANSKY V.V., KRAZHAN V.S., TCHEPKUNOV A.I.
Source: Tekhnichna Elektrodynamika 4: 58–60, 2009

Subject Categories:□□□□□□ Electrotechnologyical systems

Title: Computation of an electromagnetic field in a cylindrical crystallizer of a multi-winding electromagnetic mixer of liquid metal
Authors: KARLOV A.N., KGNDRATENKO I.P., RASHEPKIN A.P.
Source: Tekhnichna Elektrodynamika 4: 61–65, 2009

Subject Categories:□□□□□□ Information measuring systems in power engineering

Title: Stabilization of sensitivity of differential conductive biosensor transformers
Authors: VASILENKO A.D., MELNIK V.G., NOVIK A.I., RUBANCHUK M.P.
Source: Tekhnichna Elektrodynamika 4: 66–70, 2009

Title: Method of half sections for linearity error control of precision thermometric bridges
Authors: MIKHAL A.A.
Source: Tekhnichna Elektrodynamika 4: 71–74, 2009

Title: Comparative analysis of static characteristics of precision sources of variable signals
Authors: PRONZELEVA S.Yu.

Source: Tekhnichna Elektrodynamika 4: 75–78, 2009

Title: **Abstracts**
Source: Tekhnichna Elektrodynamika 4: 79–80, 2009

Institute of Electrodynamics, 2009
