

2001, No 2

CONTENTS

Electrodynamics of electrical power devices

GURIN A.G., NABOKA B.G., GLADCHENKO V.Ya. Wave phenomena in electrodynamic

radiators and complex hydroacoustic signals forming_____

_____ 3

KORCHEVOI Yu.T., RASCHEPKIN V.A. Acoustic waves amplification at electrodes reflection

in a gas discharge of atmospheric
pressure_____ 6

ZAGIRNJAK M.V., USATJUK V.M., AKIMOV O.S. A quadrosection method modification

for complicated equivalent circuits computation_____ 11

FIKSEN V.N., DUBODELOV V.I., GORSHKOV A.O., SLAZNEV N.A., SCHERBA A.A., SHNU
RKO V.K.

Investigation of supply current amplitude and frequency influence on hydraulic head

of magnetodynamic installation_____ 15

KONDRATENKO I.P., PETUKHOV I.S. About computation of leakage inductance of inductor
open

slots for plane rolled stock heating_____ 19

Conversion of electric energy parameters

ROZOV V.Yu. Special features of semiconductor supply sources construction of electromagnetic

potentiometers of magnetic fields _____
_____ 24

BOIKO V.S., POTJAZHENKO I. A., SOTNIK N.I., SHULJAK S.A., BOIKO V.V. Complex commutation

in compensative converting systems _____
_____ 30

VOLKOV A.V. Optimization of power consumption modes of asynchronous electric drives with

AVI-PWM and DFC _____
_____ 36

BUDNIKOV V.N. Elaboration of a digital current controller and traction engine velocity algorithm

with aperiodic transient
process _____ 42

PAVLOVSKY V.O. Analysis of a "needle" pulsation power
spectrum _____ 46

Electromechanical energy conversion

AFONIN A.A. Problems of electromechanical power converters configuration conversion
_____ 49

VAS'KOVSKY Yu.N., SHINKARENKO V.F. Mathematical simulation and investigation of
multirotor

electromechanical
converters _____ 54

Electric power systems and installations

GUDIM V.I., SKRIPNIK O.I., TATSIY A.P. Simulation of a controllable filter of high harmonic
currents

of power supply systems of electric arc steel melting
furnaces _____ 59

Electrical and magnetic measurements

KARASINSKY O.L., TESIK Yu.F. Investigation of construction principles of microcontroller

meters

of pulses

frequency _____

____ 63

ZVARICH V.N. Devices and systems of vibration diagnostics of electrical power equipment

(vibration converters, devices of preliminary processing and devices of vibration signals recording) _____ 67

TARANOV S.G. Dynamics analysis of alternating current fundamental harmonic stabilizer _____

71

Scientific and technical information

News from the Highest Certifying Commission of Ukraine

_____ 74

In commemoration of the 85th anniversary of I.M.CHIGENKO, academician, of the National Academy

of Sciences of Ukraine

_____ 79

Abstracts

80
