

2001, No 5

CONTENTS

Electrodynamics of electrical power devices

MYSLOVICH M.V., SHULGA V.G. Wave-left functions for signals processing which accompany

electrotechnical equipment operation _____
_____ 3

MATVIJCHUK Ya.M., OLIVA O.V. Numerical method of chopping oscillator model
synthesis _____ 7

PODOLTSEV A.D., KUCHERYAVAYA I.N. Computer simulation and analysis of irregularity of

current density and temperature distribution in a volume of luminous radiation semiconductor structure__10

BOZHKO I.V., PETUKHOV I.S., RASCHEPKIN A.P. About electric field strength of a particle discharges

beginning in a rigid insulation_____

_____ 18

FAL'KOVSKY N.I., BELINSKY V.V. Weak-current aftercorona arc discharge_____ 23

GORISLAVETS Yu.M., GLUKHEN'KY A.I. Electromagnetic pressure in devices for liquid metals micrometering_____

_____ 28

Conversion of electric energy parameters

PETERGERJA Yu.S., SOBOLEV A.V. Application of a geometrical approach to analysis of the processes

in matrix converters_____

_____ 33

FEDIY V.S., NAMESTNIK S.G. Beats in a series RLC-circuit with inductive circuit
switch_____ 37

ROGOZA M.V., SAMI MUKHAMMED AMIN RADZHI KHADZHAHMAD. Creation of an
automatic
control systems of mines turbomechanisms drives parameters at an autonomous source
supply_____ 42

Electromechanical energy conversion

SZYMCZAK P., SHINKARENKO V.F. Principles of construction and genetic classification of
generating

frames of electric motors with inverse motion of mobile parts _____
_____ 45

PETRUSHIN V.S., YAKIMETS A.M. Investigation of power indices of asynchronous motors in

dynamic modes at parametrical
control_____ 50

Electrical power systems and installations

STOGNIY B.S., SOPEL M.F., AGAMALOV O.N. Diagnostics of analogue automatic controllers

of synchronous motors excitation with application of microprocessor recorders of accident processes _____ 53

TVERDJAKOV V.V. Determination of powerful synchronous generators parameters by means of

frequency
characteristics _____
___ 57

ZINOVKIN V.V., LJUTY A.P., ZINOVKIN M.V. Analysis of economic damage in power supply systems

of power capacitive industrial plants _____

_____ 60

Electrical and magnetic measurements

BURBELO M.I., KRAVETS A.N. A quasibalanced bridge circuit for four-elements two-terminals

parameters
measurement _____ 6
4

KUTS Yu.V. Measurement of cumulative phase shifts _____
_____ 67

Information

News from Highest Certifying Commssion of Ukraine _____
_____ 73

Abstracts _____
_____ 78
