

1996 □ 1

CONTENTS

Electrodynamics of electrical power devices

Shidlovskii A.K., Rosov V.Iu. Automatic compensation systems of external magnetic fields for

energy saturated
objects _____ 3

Podoltsev A.D., Kucheriavaia I.N. Pulse magnetic field 3D -simulation in conductive medium
with

the combined
method _____ 10

Lupikov V.S. A magnetic dipole and a maximal strengt
of its multipoles _____
14

Conversion of electric energy parameters

Sinchuk O.N., Afanas'ev E. V., Afanas'eva M. G. Methodology of creating a circuitry decision ar

chitecture

of pulse control systems for the traction electric drive in combined retardation modes _____
_____ 18

Kostuclienko N.B. The principal relations for power exchange between two capacitance
elements _____
23

Brzhezitskii Vu4., Ho Van N'at Chyong. To the calculation of commutative voltage pulse
parameters

28

Electromechanical energy conversion

Gentkovski Z. A three-phase asynchronous generator with transistor reactive power
source _____ 31

Vakulenko K.N., Do Nguen Hyng Mode optimisation of a double-fed machine with frequency
control _____ 36

Pentegovl. V., RymarS. V. A calculation method of transformer exiting current for using in the
automated design engineering _____
_____ 39

Lazarev V.L., Soroka M.V. Critical loads of conductor lying-down in transformer windings. Windings

made from transposed PTB-type
wire _____ 45

Electrical power systems and installations

Titko A.I., Shalomygin M.V., Babiak A.A. Regressive dependences for turbogenerator monitoring

intelligence
systems _____ 4
9

Koliandra I.A., Rozhdestvenskii C.B., Krehno A.A. The recuperative traction
substation _____ 53

Pisanko V.V., Osadchii V.V., Mendosa Plata A., Hoballah N. The software and hardware
complex

for microprocessor-based control systems setting-up _____
_____ 58

Electrical and magnetic measurements

Kononenko A.G., Masurenko A., Nizhenskii A.D., Ornatskii A., Sidorchuk V.E. The optimized

phase-to-code converter for precision phase light range finde

r _____
61

Sebko V.P., Chepikov V.V., Nikitina I.A. The contactless check errors of a conductive cylindrical

item diameter

_____ 6
4

Dunets B. V. Design method generalisation of measuring functional converters with multilevel

error correction

_____ 68

Scientific and technical information

Iurchenko N.N., Lebedev A.V., Gritsenko N.P. Powerful transistor power source for electrical technology

73

Voitenko A.E. Increasing power of an electrical pulse under current commutation in an inductive energy

storage with an electrical-explosion opening switch

74

CSD multy sealing system offers optimized fire resistance and flexibility

76

Chronicle, information

In commemoration of the 60th anniversary of Igor V.Volkov, Associate Member of the National

Academy of Sciences of Ukraine

77

In commemoration of the 60th anniversary of Boris S.Stognii, Academician of the National Academy

of Sciences of Ukraine

79
