A.N. Baranov, V.G. Glazkov, A.V. Puzakov, O.V. Semenova. Special features of stabilizing pulse

converters with ladder-type
filters_____ 14

S.I. Vypanasenko Power control in electrotechnological installations with a non-

sinusoidal current
form_____ 19

Yu.A. Denisov, A.I. Denisov. Power supply systems stability with different methods of
pulse-width

modulation_____ 22

Electromechanical energy conversion

A.A. Afonin, V.V. Grebenikov. Superspeedofresponce electromechanical energy
converters_____ 28

A.P. Verbovoy, P.F. Verbovoy, A.M. Syanov Electromagnetic parameters investigation of
massive

ferromagnetic rotors and their modifications

35

V.V. Kuzmin, V.A. Saratov, I.D. Cheremisov. Calculative asynchronous characteristics of 220 MW

power air-cooled
turbogenerator _____
40

Yu.M. Bogoslavsky, Yu.A. Prokofjev, S.L. Tsviliy, Do Nguen Hyng. Collaboration investigations of

synchronous and asynchronous turbogenerator groups within one power station _____
_____ 44

I.Kryger. Some problems of power saving at induction motors
operation _____
48

Electric energy systems and installations

I.V. Volkov, E.Yu. Komarenko, G.L. Baranov, V.L. Baranov, V.V. Tatkovsky. Guarantee-adaptive control of

power station power-generating unit regimes in power system_____ 55

G.G. Pivnyak, V.V. Slesarev. Construction of mathematical efficiency functions for power

intensive processes supervisory control_____ 61

Yu.I. Kravchenko, V.P. Kuevda, V.G. Olecsenko. Reactive power regulator of capacitor banks_____
65

Electrical and magnetic measurements

E.A. Andrievsky, R.O. Mazmanyant. Adaptive digital meter of rotation rate_____ 70

S.A. Volokhov, L.F. Ivleva. Procedure error of magnetic moment
measurements_____
