

1994, □ 1

CONTENTS

Electrodynamics of electrical power devices

Zautner F. L., Peljugena O. Ju., Rozo vV. Ju. The probabilistic method of prediction of the electrical

equipment electromagnetic interferences in low-frequency
band _____ 3

Kuznetsov I. Ju., Sorokin A. V. Electromagnetic radiation of the solenoid-operated hydraulic

pulse devices _____
 _____ 6

Electric energy parameters conversion

Senko V. I., Lebedenko S. A., Kalinichenko A. P., Fan Kuok Zoong, Fam Kuang Vmg.

A new algo-rithm of the output voltage pulse-width modulation of the 3-phase self-excited

inverter with neutral
 point _____ 13

Shidlovskaya N. A. Voltage resonance in the circuit with the nonlinear resistive load 18

Electromechanical energy conversion

Danko V. G., Meleeh V. I., Polyakov I. V. Investigation of magnetic field and of excitation process

of low-inertia linear electric motor _____
_____ 25

Shinkarenko V. F. Classification of the electro-mechanical energy converters in multidimensional

space of symptoms _____
_____ 31

Shimberev V. B. Design of universal algorithm and program complex for investigation of electric

machine
vibration _____
36

Lutskiv M. M., Stasenko V. J., Shevchuk O. V. Multiterminal models of electromechanical systems _____ 39

Bezusy L. G., Vaskovsky Ju. N., Deennik L. N. Transversal magnetic forces in polybar linear

electric
motor_____

_ 42

Rutcovsky Z. An application of method of circuit equivalent to magnetic loop for calculations of

magnetizing current in 3-phase induction motor with anisotropy
core_____ 46

Beldy V. T. Regulation of voltage distribution for height of high-voltage instrument transformers

outer
insulation_____

___ 50

Dams M. Equivalent circuit of induction two-cage motor for analysis of non-steady
processes_____ 53

Bichkovska-Lipinska L. Analysis of converter transformer operating
conditions_____ 58

Electric energy systems and installations

Shidlovsky A. K., Korobchoo kK. V. The rise of the part of economical criterion in the Ukrainian

economics management _____
_____ 64

Kirilenko A. V., Jandoolsky A. S. Integrated information management systems of the power

networks _____
_____ 68

Zharkin A. F., Kaplichny N. N. The impact of win- ding connections of 10/0,4 kV transformer
upon

the higher harmonic quantity of low-voltage network _____
_____ 76
