

1991, □ 3

CONTENTS

Electrodynamics of electric power devices

Borisov B.P., Pivovarov L.V., Taranushenko S.I., Turchin A.P., Tikhonov A.P.

Electromagnetic device with axis current _____ 3

Vishtak P.A., Zinchenko T.R., Raschepkin A.P. Calculation of electromagnetic fields and heat

releases in conducting bends at alternating value of air gap _____ 9

Popov A.P., Mechkalo A.M., Kurakina O.P. Numerical calculation of electrodynamic characteristics

of explosion-magnetic generator on the basis of secondary current sources
method_____14

Lavrov V.Ja., Kirpanev A.V. Identification of electromagnetic field in spherical layer_____20

Isaeva N.L., Lysak N.V. Calculation of electromagnetic pressure in liquid conductors_____25

Bobrov U.K. Electrodynamics of leader discharge
channel_____29

Belyaev V.K. Electric field of charged cylindrical insulator
_____32

Kolchanov A.Ja. Electromagnetic conduction suspension
_____41

Conversion of electric energy parameters

Dvoinykh E.V. Three-stage electromechanical converter in a system of angle

stabilization of space
vehicle_____46

Chekhet E.M., Mikhalsky V.M., Sobolev V.N. Combined control of direct frequency converters

for electric drive

52

Voloshin A.Ya., Sibirtsev V.G. Optimization of discrete voltage synthesis by dynamic

programming method

57

Penin A.A. Geometrical properties of regulated voltage converters at limited power

of supply source

61

Electromechanical energy conversion

Bilyk P.D., Kravchenko A.N., Tupailo O.R. Calculation of switching currents of draught

transformers of line electric locomotives

66

Vishnevsky L.V. Thyristor sources of reactive current for asynchronous generator excitation____
73

Zhukovskaya E.B., Kheruntsev P.E. Modelling peculiarities of asynchronous electric

drives in creep rate
regime_____ 77

Electric power systems and installations

Kurenniy E.G., Pushnaya I.V., Pogrebnyak N.N., Suleiman Haled, Klimenko L.E.

Effectiveness of double reactors
application_____ 83

Nedzel'sky I.S. Possibility of powers disconnection of Chernobyl'skaya, Rovenskaya

and Khmel'nitskaya atomic power
stations_____ 87

Rogoza V.V., Sopel M.F., Dovgodko V.N., Dyachuk S.Ya., Sorochinsky V.V., Kholodenko Yu.N.

Hardware of information diagnostic
system_____ 88

Electric and magnetic measurements

Monastyrsky Z. Ya. Construction principles of invariant bridge measuring devices

with impedance
transducers_____ 95

Guryanov V.S., Surdu M.N., Salyuk V.P. Universal transformer bridges of alternating

current for dimensions transmission of parameters units of complex impedance_____ 103

Seminars, conferences

Stogniy B.S., Kirilenko A.V. Problems of complex automation of electric power systems

on the basis of microprocessor facilities (I all-Union scientific and technical
conference)_____ 109

Scientific and technical information

Akinin K.P., Voiteh V.A., Styazhkin V.P. Controlled-velocity electric drive on the basis

of asynchronous engine of AUP or AX series_____

82

Andrievsky E.A., Sheverdin G.P. An installation for generation of pulse magnetic fields_____

108
