CONTENTS

Electrodynamics of electric power devices

Ostreiko V.N. Electromagnetic characteristics of electrically heterogeneous half-space

as a sinusoidal current
conductor_____ 3

Voloshko A.V. Interpolation and increase of harmonic and spectral analysis
accuracy_____ 8

Lazarev V.I. Radial stability of transformer windings with spliced conductors_____

13

Burov A.V. Electrodynamic forces in coaxial cylindrical resonator_____

19

Electric energy parameters conversion

Shidlovsky A.K., Kozlov Yu.V. Choice of input circuit parameters of universal static converter

accounting using current
distortions_____

22

Fediy V.S., Cherednichenko S.L. Power forcing of single-phase capasitor banks_____

29

Kravchenko V.V. Conditions of forced oscillations appearance on the main sub-harmonic

of commutation frequency in reducrive pulse stabilizer with PWM-II and inverse connections

on voltage and current_____

36

Dzhasim M.M. Calculation of voltage inverters currents in a closed circuit which

operate for asynchronous motor
drive_____ 42

Dmitrieva E.N., Arhipova S.N. Valuation of relay operation at random processes _____
_____ 46

Electromechanical energy conversion

Afonin A.A., Grebenikov V.V., Podol'tsev A.D., Gurov S.D. Optimization of dynamic

characteristics of linear step motors on parameters of control voltage pulse _____
_____ 51

Arhangel'sky N.L., Kurnishev B.S., Pikunov V.V., Vinogradov A.B. Highdynamic

asynchronous electric drive _____
_____ 57

Fedorenko G.M., But A.A., Kuz'min V.V., Podgorniy B.M., Gliger E.M., Livshits A.L. Methods
and

measuring means for determination of extrusion efforts in stator core of power turbogenerator____
64

Misac T.B. Current regulation in a system of direct frequency conversion-asynchronous engine____
69

Degtyarenko O.A., Musienko A.A. Synthesis of a special optimum control by direct current drive____
74

Kuevda V.P., Baljuta S.N. Calculation of electromagnetic loads of cryoturbogenerator

at low-frequency rotor swinging by equivalent circuits_____
79

Konoplev K.G. Synchronous engines stability with automatic excitat'ion controllers on stator

current and its
derivatives_____ 85

Electric power systems and installations

Dzhuvarly Ch.M., Dmitrlev E.V., Shidlovsky A.K., Kuznetsov V.G., Antipov K.M., Maximov V.M.

Ferroresonance protection of voltages in power networks_____92

Mayer V.Ia., Klad'ko S.R., Zenia. Calculation of electric energy quality indices which identically
show variation of energetic process of three-phase systems with computer application_____99

Electric and magnetic measurements

Stogniy B.S., Vainshtein Yu.A., Dentin A.E. Control of a welding process on current
measurements in a primary transformer circuit_____104

Novik A.I., Pustovalov N.D. Reduction of quantization error of digital extreme bridges with
non-reversal subdivisional balancing
algorithms_____108
