CONTENTS

Theoretical electrical engineering and electrophysics

KUCHERJAVAJA I.N. Computer simulation and analysis of thermal state of an underground

cable line of 10 kV voltage _____
_____ 3

LEVITSKY A.S., MEDVEDENKO M.P., MIKHAL A.A. Computation of a conversion factor

of a planar system of electrodes with an interdigitated geometry _____
_____ 9

FALKOVSKY M.I., BOZHKO I.V. Flames of a diaphragm discharge in water _____
_____ 17

Conversion of electric energy parameters

BOIKO V.S., POTJAZHENKO I.O., SHULJAK A.A., SHULJAK S.A. Special features of operation

conditions of a two-phase adjusting reactor of a three-phase semiconductor rectifier with a

capacitor switch commutating
unit

25

SKURJATIN Yu.V., SAMCHELEEV Yu.P., YABLON V.P. Zero-overshoot responses in a valve

current source with relay control

29

GRECHKO E.N. Two-stage pulse-width
converters

33

KUHAREV A.L., KOHAN P.G., NEDVIGA L.A. Commutation processes in RPN reactor devices

of electric furnace transformers

38

Electromechanical energy conversion

CHUCHMAN Yu., CHEREPANJAK M., MAKSYMOVICH D. Special features of magnetoelectric

systems of slotless executive and measuring electric motors
excitation _____ 44

Electric power systems and installations

KUZNETSOV V.G., GASHIMOV A.M., BABAEV E.S. Influence of space weather on systems

of electric energy transmission in average
latitudes _____ 49

ROSEN V.P., SOLOVEY A.I., CHERNJAVSKY A.V., KAZMIRUK M.A. Design of optimum use

of power saving potential of industrial plants of
Ukraine _____ 59

Electrotechnological complexes and systems

VOZNYI V.A., GLUKHEN'KY A.I., GORISLAVETS Yu.M. Simulation of transient processes

in a stopper metering machine of liquid metals

68

Information measuring systems in power engineering

BRAGINETS I.A., KONONENKO A.G., MASJURENKO Yu.A., NIZHENSKY A.D. Laser meter

of low frequency
vibrations

74

KARASINSKY O.L., TESIK Yu.F., SHUVALOV G.I., KOLOMIJETS E.A. Calibration algorithm

of a multiphase generator for simulation of a three-phase network
parameters

77
