## CONTENTS

### Electrodynamics of electrical power devices

SYNTIK A.A. Computer and mathematical simulation of multimodule electromagnetic systems

with a travelling magnetic  
field\_\_\_\_\_

3

DUBOVENKO K.V. Screening influence on electric strength of a compact submegavolt  
high-voltage

impulse generator with vacuum insulation\_\_\_\_\_8  
\_\_\_\_\_

PRUDIUS I.N., ZAKHARIJA Jo.A., SINJAVSKY A.T. Diffraction of an ionospheric inhomogeneous

wave at radar display forming problem  
solution\_\_\_\_\_14

### **Conversion of electric energy parameters**

SKIDANOV V.M., YURCHENKO O.N., PAVLOV V.B. Algorithmic special features of problems

solution of transport traction converters control\_\_\_\_\_19  
\_\_\_\_\_

CHIZHENKO A.I. About active power balance in a compensative rectifier circuit with thyristor-

capacitive switching points  
\_\_\_\_\_

23

BONDARENKO D.V. Simulation methods of semiconductor electroinjection lasers dynamics

\_\_\_\_\_ 30

## **Electromechanical energy conversion**

PETRUSHIN V.S., RJABININ S.V., JAKIMETS A.M. Analysis of losses and thermal state of

an asynchronous motor at a parametrical control\_\_\_\_\_ 34  
\_\_\_\_\_

FEDOROV M.M. Simulation of a thermal state dynamics of electrical motors at intermittent cycles\_\_\_\_\_ 38

ANDRIENKO V.M., OEZINGMANN D. Computation of operation modes of a universal

collector motor at an alternating current network  
operation\_\_\_\_\_ 42

MARUSCHAK Ja.Ja. Investigation of automatic regulation system of two-mass system  
synthesized

by the generalized characteristical polynomial\_\_\_\_\_ 45  
\_\_\_\_\_

## Electrical power systems and installations

LAOSHVILI D.P., KOHREIDZE G.K., METREVELI V.Sh., DZHAVAKHADZE G.A.  
Electromagnetic

compability provision at a parallel operation of power systems of neighbouring  
countries\_\_\_\_\_ 49

LYSJAK G.M., MALINOVSKY A.A., PASTUKH O.R. Methods of the main parameters choice of  
the

increased reliability scheme of block power stations on the conditions of a required voltage

level maintenance on auxiliaries buses during external three-phase short  
circuits\_\_\_\_\_ 51

MALJAR V.S., GLUKHIVSKY L.I., KHAI M.V. Computation of steady-state conditions of  
combined  
synchronous generators by a differential  
spline-method\_\_\_\_\_ 56

## Electrical and magnetic measurements

MONASTYRSKY Z.Ja. Generalized bridge measuring circuits structures with impedance transducers\_\_\_\_\_ 59

VOLOKHOV S.A., GETMAN A.V. Bases of magnetic multifields measures construction\_\_\_\_\_ 62

KANIVETS I.A., KONONENKO A.G., MASJURENKO Ju.A., NIZHENSKY A.D, ORNATSKY I.A.

Solution of an unambiguous distance determination problem for phase light range finders\_\_\_\_\_ 67

LITVIKH V.V. Mathematical models of linear converter error components of a root-mean-square voltage\_\_\_\_\_ 69

KARASINSKY O.L., TESIK Ju.F. Error analysis of code-frequency pulses converters\_\_\_\_\_ 73

## Scientific and technical information

POROSHIN S.M. Phase range finder for continuous wave radar guidance\_\_\_\_\_ 76

## Abstracts
