## CONTENTS

### Electrodynamics of electrical power devices

VASETSKY Yu.M. Multipole representation of a magnetic field, power and interacting forces

of massive current leads \_\_\_\_\_  
\_\_\_\_\_ 3

SHUMILOV Yu.N., SCHERBA A.A., PODOLTSEV A.D., KUCHERYAVAYA I.N., RATSLAV V.V.

Electric field analysis in a glass-reinforced plastic dielectric at an occluded gas  
presence \_\_\_\_\_ 9

REZINKINA M.M. Numerical investigation of a three-dimensional dendrite field which originates at

an electric ageing of a polymer  
insulation\_\_\_\_\_ 13

ZATSEPIN N.N. Magnetic reversal of a ferromagnet on a hysteresisless curve by a

homogeneous variable magnetic field\_\_\_\_\_ 17  
\_\_\_\_\_

### **Conversion of electric energy parameters**

VOLKOV I.V., AKININ K.P., ISAKOV G.V. A comparative analysis of current filtration methods

which are used by rectifying systems\_\_\_\_\_ 23  
\_\_\_\_\_

PERESADA S.M. A generalized theory of an indirect vector control of an asynchronous motor\_\_\_\_\_ 27

MATVEEV S.A. A mathematical model of a capacitive integrator charge device\_\_\_\_\_ 32

PAVLOV G.V., OBRUBOV A.V., POKROVSKY M.V. Power interchange special features in

serial-to-resonant converters

36

MILANICH T.V. Determination of boundary current and voltage values in converters using a

complex plane

41

KOSTIN N.A., BONDAR I.L., BONDAR O.I. Application of variables conversion method to

nonlinear circuits

analysis

43

## **Electromechanical energy conversion**

AFONIN A.A. Power generators with a magnetic flux  
commutation

45

LISCHENKO A.I., LESNIK V.A., MAZURENKO L.I. Asynchronous generators application

in autonomous welding units \_\_\_\_\_  
\_\_\_\_\_ 51

VYGOVSKY V.I. Thermal defects diagnostics of turbo-generator stator winding with a direct cooling\_\_\_\_ 55

KOZLOV V.V., RASSAL'SKY A.N. Towards a problem of gaskets influence inside disk windings  
on a maximum insulation temperature value \_\_\_\_\_  
\_\_\_\_\_ 59

## **Electrical power systems and installations**

STOGNIY B.S., SHIDLOVSKAYA N.A., SOPEL M.F. A non-linear current transformer operation  
analysis at a sinusoidal input signal \_\_\_\_\_  
\_\_\_\_\_ 62

ZHURAKHIVSKY A.V., KENS Yu.A., MEDINSKY R.V. Power networks operation mode without  
a neutral wire at a longitudinal asymmetry \_\_\_\_\_  
\_\_\_\_\_ 65

SIDOROV A.F. About an antiaccident automatic equipment interaction with automatic control

systems of hydroelectric stations frequency and  
power \_\_\_\_\_ 70

## **Electrical and magnetic measurements**

SURDU M.N., KAMINSKY V.YU., MOGILEVSKY V.M., SEMENYCHEVA L.N., IVITSKY I.R.

Methods of a constant current transmission accuracy increase of a resistance unit  
dimension \_\_\_\_\_ 73

**INDEX of papers in 1999** \_\_\_\_\_  
\_\_\_\_\_ 76

**Abstracts** \_\_\_\_\_  
\_\_\_\_\_ 80
