Contents

Electrodynamics of electrical power devices

SHCHERBA A.A., KUCHERYAVAYA I.N., PODOLTSEV A.D., SOBOLEVA K.L., SHUMILOV Yu.N.

Modelling and analysis of electric fields in dielectrics containing inclusions of complex shape

_____
3

Conversion of electric energy parameters

ARHIEREEV I.P., KIPENSKY A.V., KONOPLEV I.A. Power factor increase of three-phase

alternating voltage converters with active load_____ 7

LUTSENKO V.A. Self-excited voltage inverters with a given output current shape tracking_____ 15

LUTSKIV M.M., TYMCHENKO O.V., SHUL'GIK Yu.O. Discrete systems with a compensating device with a multiple period of quantization_____ 20

SHYDLOVSKY A.K., SKIDANOV V.M., PAVLOV V.B., YURCHENKO O.M. Efficiency Investigation of regenerative braking operation of electric motor cars_____ 22

SINOLITSY A.F. Power dependences of group conversive devices_____ 30

COSTJUKOVA T.P., ROGINSKAYA L.E. Vector optimization of electromagnetic modules of frequency converters for power engineering_____ 34

CHIGENKO A.I. Inductance influence of a smoothing throttle on resistive load bridge controller

performances_____
_____ 38

Electromechanical energy conversion

ANTONOV A.E. Rotor motion of two-coordinate electrical generator in aprecession mode_____
_____
45

CHERNYSHOV N.N. Characteristic properties of vibratory systems functioning with load-bearing

elements on the basis of constant magnets_____ 48

SOBOLEVA K.L., SHUMILOV Yu.N., YASHIN Yu.N., SHCHERBA A.A. The insulating constructions

of polymerical composite material_____
_____ 51

Electrical power systems and installations

FEDORENKO G.M., SARATOV V.A.., STOVBUN V.V. Analysis of operate reliability and load capacity

of the main electrotechnical equipment of a nuclear power station_____ 52

SKRIPNIK O.I. Simulation of prolonged transient processes_____ _____ 56

MUSYCHENKO O.D. Modern state and methods of receivers responsibility establishment for

electric energyquality decline_____ _____ 61

MOSTOVYAK I.V., NOVIKOVA O.I., LIZANETS V.V. Power characteristics of a three-phase

line with small active distributed parameters_____ _____ 65

DUDURICH I.M., ROSOLOVSKY E. Superhigh voltage power system simulation using EMTP

program_____ _____67

Electrical and magnetic measurements

SEBKOV.P., CHING THI TO OANG, SALEM HANNA MADAIN Electromagnetic control of radius

and specific conductance of cylindrical products_____ _____ 73

Discussion

KUZ'MIN V.V., SHPATENKO S.A., SHPATENKO T.V. About reasons of uncoordination at vector

diagrams construction of transformers and rotatable generators_____76
