

1998, □ 2

Contents

Electrodynamics of electrical power devices

NIKITIN Yu. P. Analysis of two-wire segments of non-uniform
/JC-lines_____ 3

SCHERBA A.A., ROSOVITSKY V.F., SOBOLEVA K.L., SHUMILOV Yu.N., BORZHKOVSKY
L.S.

Strength increase of electric insulation elements in conditions of essential dynamic
effects_____ 7

PRIJMAK M.V. Periodical noise fields and simulation and analysis problems of stochastic

periodical

electric energy phenomena _____ 12

CHABAN V.I., PELESHKO D.D., CHABAN O.V. Differential equations of a transformer

with toroidal magnetic
core _____ 14

OLESHKO T.I. About a method of a small paramter selection at a statistic simulation

of complex power systems _____ 16

Conversion of electric energy parameters

ARTEMENKO M.E. Topological synthesis of single-ended transistor voltage converters operating

in an interrupted magnetic flux
condition _____ 19

SHURPA V.V. Quasi-resonance pulse converter with a retarding capacitor _____ 24

AKHMEROV R.A., POPOVA I.I., ROGINSKAYA L.E. Systems of voltage regulation and frequency

multiplication with an interval conversion of phases number _____ 30

CH1ZHENKO A.I. Multiplication effect of a capacitance in a valve source circuit of a reactive power

as a result of power exchanging
processes _____ 34

Electromechanical energy conversion

FEDORENKO G.M., VAS'KOVSKY Yu.N., SARATOV V.A, CHEREMISOV I.Ya. Investigation of turbo-

generators electromagnetic characteristics with a complete air
cooling _____ 41

ANTONOV A.E. Joint operation of two-coordinate electric motors with two-level and three-level rotor __ 44

MASURENKO L.I. Electric energy quality of asynchronous valve
starter-generator_____ 48

BOLJUCH V.F., EI YUSSEF I.M. Liquid nitrogen cooling influence on linear induction
percussion

motor efficiency_____ 52

BORISENKO A.N. Investigation of a control system indices of a Diesel-electric set at

interferences
presence_____ 58

Electrical power systems and installations

BUTKEVICH O.F. About one of the aspects of a problem formulation of power networks state

estimation in conditions of information incompleteness_____ 60

VARETSKY Yu.O. Asymmetry compensation by static compensators in supply ndtworks

of alternating loads _____
_____ 66

KIRICHENKOV.I. Commemorating investigation of power characteristics of resource-saving mill

of a forced self-milling (MFSM) _____
_____ 70

Electrical and magnetic measurements

NOVIK A.I., NEBOLJUBOV E.Yu., BORSCHEV P.I., LEZHOEV R.S. MAIDAN A.E. Capacitive meter

of
movements _____
_____ 76

ABSTRACTS
