

1997, No 2

CONTENTS

Electrodynamics of electrical power devices

Boev V.M. Calculatin of three-dimensional magnetic field with discontinuity function application_____ 3

Degtyarev V.V., Lupikov V.S., Kukush V.D. Method of external magnetic field measurement of each of electrical engineering devices at their joint operation_____ 10

Conversion of electric energy parameters

Puzakov A.V., Romanets R.A., Khmelev A.G. Static and dynamic properties forming of decreasing

pulse voltage regulator _____
_____ 13

Pyanykh B.E., Zhyvotovskiy S.A. Valve converters with intermediate energy
accumulation _____ 19

Skidanov V.M. Method of immediate control parameters determination for semiconductor
converters regulation in function of load current in traction DC electric
drives _____ 22

Gorbachev M.N. Periodical solutions finding for the same class problems of electric circuits
theory _____ 27

Abdul Razak, Piskunov O.G., Surzhik T.V., Shevchuk V.I. Conditions of maximum power
transmission

from autonomous constant current source into non-linear active
load _____
34

Electromechanical energy conversion

Kislenko V.I., Onoprich V.P., Rakitsky L.B. Computation and designing problems of small power

38

Pentegov I.V., Rymar S.V. Specil features of transformers computation with developed

transvers magnetic leakage fluxes _____
_____ 41

Electrical power systems and installations

Marchenko B.G., Myslovich M.V. Prospect approaches to diagnostics systems creation of electrical

engineering equipment _____
_____ 49

Kuznetsov V.G. Mathematical models of resonance operating conditions of power supply systems

with asymmetric elements _____
_____ 53

Yandul'sky A.S. Stable estimation of distributive power network parameters

57

Electrical and magnetic measuremens

Dunaets B.V. Spesial features of creation and application of intelligent measuring means_____

61

Scientific and technical information

Fedorenko G.M., Starodumov V.M. Nuclear power of Germany: safety, reliability, efficiency _____

65

Budjony V.F., Bushinsky V.O., Nikitenko Yu.O., Khilyuk V.M. Infrared parameters meter

of pulp- and paper materials _____
_____73

Chronicle, information

In commemoration of the 50th anniversary of Victor F.Reztsov, Associate Member of the
National
Academy of Sciences of Ukraine _____
_____74

Abstracts _____
_____75
