## TECHNICAL ELECTRODYNAMICS 2010

---

### CONTENTS

## Theoretical electrical engineering and electrophysics

[SHCHERBA A.A., SHCHERBA M.A. Modelling and analysis of electric field in dielectric medium disturbed by conductive microinclusions of different dimensions and configurations](#)

[TRETIAKOVA L.D., PODOLCEV A.D. The analysis of electric field near-by a man in protective clothing made of polymeric material in the presence of surface charge on it](#)

## Conversion of electric energy parameters

[LIPKOVSKIY K.O. Construction duality of transformer-key operation structures of discrete stabilizers and regulators of alternating voltage](#)

16

[VOLKOV A.V., KOSENKO I.A. The improvement of predictive relay-vector control by active current rectifier in induction motor drive with self-commutated inverter](#)

24

## Electromechanical energy conversion

[MAZURENKO L.I., ROMANENKO V.I. Induction generator with inverter excitation as the welding arc supply](#)

35

[ANTONOV A.E., KIREEV B.G. Two types of excitation systems of air-gap-wound magnetoelectric engines](#)

40

## Electric power system and installations

[STOGNIY B.S., KYRYLENKO O.V., DENYSJUK S.P. Intelligent electric mains of electrical power systems and their technological support](#) 44

[BUTKEVYCH O.F., LEVKONJUK A.V., ZORIN E.V., BULANAYA V.S. About the usage of synchronized measurements of voltage angles from the objects of Interconnected Power System of Ukraine \(IPS\) by determination of an admissibility of its current modes due to the static stability margin](#) 51

[BONDARENKO V.E., CHERKASHINA V.V., CHEREMISIN N.M. Formation of the techno-economic models of overhead transmission lines in market relations and their analysis by means of criterial method](#) 59

## Electrotechnological complexes and systems

[GUDYM V.I., POSTOLYUK A.Y., YURKIV B.M. Analysis of electromagnetic processes in six electrode electric-arc furnace of pulse current](#) 65

## Information-measuring systems in power engineering

[MYSLOVYCH M.V., SYSAK R.M., ULITKO O.V. Simulation modeling of the processes of acoustic emission in solving the problem of electrical equipment diagnostics](#) 71

**Index**  
**[Abstracts](#)**

of papers in 2010
